# SPECIALIST AGRICULTURE

## Specialist Agriculture Program

The Approved Specialist Agriculture program features cattle, sheep horticulture, aquaculture and poultry. Students gain valuable experience for a broad range of careers including Veterinary Science, Agribusiness, Horticulture and Landscape Design.

From Year 10 students are able to complete certificates and incorporate agricultural studies into university and career pathways.

### Knowledge, Skills and Understandings Developed

Students:

- investigate plant, animal and market systems
- devise and implement their own systems
- observe and evaluate their ideas.
- gain relevant knowledge of budgeting and marketing processes
- understand the impact of both market and social forces on commercial enterprises
- develop understanding about sustainability issues
- climate change, water quality, incubation
- insemination practices, animal ethics principles
- auction systems, breed characteristics and responsible selection

### Practical Activities Involved

- Animal husbandry skills
- Vegetable growing
- Lamb, Calf and Chicken rearing
- Chicken incubation practices
- Operating rural machinery
- Fencing
- Led Steer competitions
- Guiding primary school student visits
- Field excursions

# SPECIALIST BASKETBALL
